Conclusion

1. Introduction

Introduction

First Aid Importance

First aid is crucial for saving lives in emergencies.

Lack of Training

Many people lack proper training or confidence to act.

AidMe's Goal

AidMe aims to provide interactive AR-based training, and real-time AI emergency assistance.

2. Problem Statment

Problem Statement

The Problem

- Low first aid knowledge in the Arab region.
- Forgetfulness.
- High risk of incorrect or delayed responses in emergencies.

Why It Matters?

- Studies show less than 5% of people in the Arab region are trained in first aid.
- Lack of accessible, interactive, and reliable training resources.

3. Objectives

Objectives

- Equip users with essential first-aid knowledge to respond confidently.
- Increase user preparedness in handling real-life medical emergencies.
- Offer interactive training using augmented reality for hands-on practice.
- Integrate an AI chatbot for immediate assistance in emergencies.
- Support users in finding nearby hospitals easily.
- Build a safer and more prepared community through education and training.

5. Our Solution

AidMe App

System Features

Functional Requirements

- **Chatbot for first aid assistance.**
- **Locate Nearest Hospitals.**
- **Train Using Augmented Reality.**
- **Reminder Notifications.**
- **Search For Lessons.**
- **Voice Command Support.**

Functional Requirements (Cont.)

- **Learn Lessons by text, images, videos.**
- **Bookmark Lessons.**
- **Quizzes After Categories.**
- **Provide Emergency Contact Info.**
- **Admin Story Sharing.**
- **Earn Badges.**

Non-Functional Requirements

- **Performance:**

The app must respond quickly, Real-time GPS tracking and accurate hospital location display.

- **Usability:**

Easy-to-navigate interface with clear action buttons.

- **Reliability:**

High uptime and stability for critical emergency scenarios.

- **Security:**

Protect user data and ensure the app is safe from unauthorized access.

- **Scalability:**

Capable of handling a growing number of users without degradation of performance.

8. Conclusion

Conclusion

- Our app provide individuals with life-saving first aid **knowledge, bridging the gap** between emergencies and professional help.
- By combining Augmented Reality, AI-powered assistance, and interactive learning, we **transform** first-aid **training** into an **engaging experience**.
- By making first aid knowledge more accessible and practical, we contribute to a safer, more resilient community.
